

Siddharth Shah

Developer :

I am Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, I transform design concepts into functional website. Beyond coding, I have an eye for design and a passion for creating delightful user experiences. As a UI/UX Developer, my mission is to craft immersive and intuitive digital experiences that leaves a lasting impact on users. My core responsibilities revolve around designing and implementing exceptional user interface that engage and delight my audience.

Projects

My PortFolio site

- My Portfolio website is a reflection of my design aesthetics and attention to detail. With a clean layout, I have focused on creating a user-friendly interface that allows visitors to explore my project effortlessly.
- Tech-Used: Created this portfolio website with help of HTML, CSS and JavaScript. Further for making it responsive I've used Media Query.
- In Contact section I've added my contact info like email, number and my GitHub +LinkedIn profile. Also created a form which will help you to reach me out.
- Site Link : <https://sid13portfolio.netlify.app>

MP-Toursim Site

- MP Tourism Site, a visually stunning tourism website designed to transport you to some of the most breathtaking and adventures destination near Madhya Pradesh.
- Created with a seamless blend of HTML5 and CSS, also added youtube videos and few pictures.
- Inserted a background video on landing page and created two buttons 1.Covid Guidelines and 2. Trip Booking Form.

Figma & Canva Designs

- In this Figma design created by me, I aimed to make something visually appealing and easy to use. The design is simple and straightforward, focusing on making the user experience enjoyable.
- In Figma : I have created a web page for shopping Nike Shoes. The layout is simple, with menu at the top that let user easily explore different categories.
- In Canva : Edited my First Youtube Video and also created thumbnail for it.
